

2.11.2024. Saturday

Venue: Vrdnik, Ethno kompleks Vrdnička Kula

08:00-18:00 Registration

08:30-09:25 Brachytherapy session

Chairs/Moderators: Olivera Ivanov (RS) , Jean Michele Hannoun Levi (FR)

8:30-8:45 Piotr Wojcieszek (PO) Current standards in Brachytherapy of the Head and Neck tumors

8:45-9:00 Jean Michele Hannoun Levi (FR) APBI with single fraction multicatheter brachytherapy

9:00-9:15 Stefanie Corradini (DE) –Liver brachytherapy

9:15-9:25 Aleksandar Tomašević (RS)- Brachytherapy re-irradiation in gynecological cancers

9:25-9:35 Jelena Ličina (RS): BrachyTerra project Serbia

09:35-09:50 Discussion

09:50-11:30 Breast radiotherapy session

Chairs/Moderators: Csaba Polgar (HU), Olivera Ivanov (RS)

9:50-10:05 Csaba Polgar (HU): Cyberknife SBRT of breast cancer

10:05-10:20 Cristina Gutierrez Miguelez (ES) : Up-dated GEC-ESTRO recommendations for accelerated partial breast irradiation

10:20-10:30 Olivera Ivanov (RS): Ultrahypofractionated radiotherapy of breast cancer vs. partial breast irradiation

10:30-10:40 Jasmina Mladenović (RS)-Omission of radiotherapy in elderly patients

10:40-10:55 Yazid Belkacemi (FR): Management of the axilla in ypN0 after primary systemic therapy for cN1: is it safe to omit regional nodal irradiation?

10:55-11:10 Discussion

11:10- 11:30 Coffee break

11:30-12:00 Opening ceremony

In memoriam professor Abraham Kuten

12:00-12:20 Golden sponsor lecture

12:20-13:30 AROME session

Chairs/Moderators: Yazid Belkacemi(FR), Dušanka Tešanović (RS)

Title: Practical Controversies in 2024: how to make decision and optimize management in Prostate and Lung cancers

Part I Prostate radiotherapy

12:20-12:40 SBRT without HT is a validated option for low and favorable intermediate risk PC

Yes: Biljana Šeha (RS)

No: Dušanka Tešanović (RS)

12:40-13:00 ADT should systematically added to pelvis RT in unfavorable intermediate risk PC

Yes: Suzana Rundić Stojanović (RS):

No: Milana Mitrić (RS)

13:00-13:20 How to deliver focal radiotherapy boost in localized PC ?

For Brachytherapy is better: Predrag Petrašinović (RS)

For MR-guided external beam radiation therapy! Yazid Belkacemi (FR)

Part II Lung radiotherapy

13:20-13:40 Radio-chemo-immunotherapy in locally advanced NSCLC is ready for “prime time”!

Yes :Igor Đan (RS):

No: Mahmut Ozsahin (CH)

13:40-14:00 SBRT and wedge resection are both validated options in limited operable NSCLC

Yes :Tatjana Arsenijević (RS):

No : Mahmut Ozsahin (CH)

14:00-14:15 Discussion

14:15- 15:00 Lunch

15:00-15:15 Silver sponsor lecture

15:15- 15:25 Physics corner

Chairs/Moderators: Borislava Petrović, Ivana Mišković

15:15-15:30 Tibor Major (HU) Cyberknife SBRT of breast cancer

15:30-15:40 Laza Rutonjski (RS) Dosimetry analysis of different planning techniques of breast radiotherapy

15:40-15:50 Ivana Mišković (RS) Physics Aspects of Total Body Irradiation

15:50-16:00 Discussion

16:00-16:20 Coffee break

16:20-16:30 *bronze sponsor lectures*

16:30-18:00 Translational radiobiology research -Experiences of Institut for oncology and radiology of Serbia

Chairs/Moderators: Marina Nikitović, Tatjana Stanojković

16:30-16:40 Ivana Matić (RS) Significance of lymphocyte apoptosis for predicting individual sensitivity of normal tissue in patients with malignant diseases treated with radiotherapy

16:40-16:50 Ivana Pašić (RS) DNA damage repair - implications for radiosensitivity prediction

16:50-17:00 Nina Petrović (RS) Prediction of radiotherapy side effects: genome and transcriptome analyses

17:00-17:10 Aleksandar Stepanović (RS) Micro RNA as biomarkers of radiation toxicity in glioblastoma

17:10-17:20 Marija Popović Vuković (RS) The mediating role of exosomes in the response to radiotherapy

17:20-17:30 Irina Besu Žižak (RS)

Interdisciplinary approach in examining individual sensitivity to radiotherapy and inflammatory mediators

17:30-17:40 Katarina Kopčalić (RS)

The relationship between serum cytokine levels and the development of radiation toxicity in patients with prostate cancer

17:40-18:00 Diskusija

20:30 GALA DINNER

Venue: Vrdnik, Etno kompleks Vrdnička Kula

3.11.2024. Sunday

Venue: Oncology Institute of Vojvodina

CONTOURING WORKSHOP /Cases presentations

Moderators: Milana Mitrić-Ašković, Jelena Ličina, Marko Bojović

11:00 Meeting of the Serbian Radiation Oncology Society

10:30-12:05 Radiation therapy technicians' session

Moderators: Slađana Tomić ,Ilija Ćurić

10:30-10:50 – Dušan Drljača (BIH) Practical implementation of DIBH radiotherapy in treatment of left sided breast carcinoma, RTTs point of view.

10:50-11:10 - Ilija Ćurić (RS) Stereotactic radiotherapy of the benign intracranial lesions

11:10-11:30 - Ivan Balentović (HR) Delineation of organs at risk in radiotherapy

11:30-11:50 - Slađana Tomić (RS) Stereotactic Body Radiotherapy of abdominal cancers

11:50-12:05 – Discussion

12:05 - Congress closure
